## Model 700-6X Extended Chain Link Handcuff Nickel Plated Finish

The Model 700-6X has additional links to accommodate individuals with larger upper bodies. Six links give 5 1/2 inches of distance between the cuffs. The added space reduces shoulder, arm and wrist strain for larger individuals. The Model 700-6X eliminates the need to link two sets of cuffs in order to restrain one individual.

The Model 700-6X incorporates spun rivet construction for increased strength and durability. Smooth single strand action allows for fast and efficient cuffing. The profiled edges minimize the risk of tissue and nerve injury.

The Model 700-6X uses Model 700 Handcuffs which have been approved by the National Institute of Justice. It comes with a lifetime warranty for manufacture defects. Two keys supplied. Made in USA.

Model	Weight	Material	Finish	Min. Opening	Min. Inside Perimeter	Max. Inside Perimeter	Max. Overall Length	Double Lock	Keys Supplied
