Model 7030 - Oversize Chain Link Handcuff Orange Color Plated Finish

The Model 7030 Oversize Chain Link Handcuff is now available in an orange finish. The color finish helps to prevent equipment loss by allowing individuals, agencies or departments to more easily identify and track property. Color can also be used to enable or reinforce a classification system such as threat level, medical condition, jurisdiction and more. Also available in red, blue, yellow and pink.

The color coating is applied using a process called Electrolytic Polyurethane Plating (EPP). EPP fully coats restraints inside and out without interfering with the lock mechanism or jaw swing-through. The durable EPP finish is resistant to chipping and scratching. The rust resistant EPP finish exceeds the National Institute of Justice's 12 hour salt spray testing standard.

The Model 7030 is designed specifically for larger individuals or special security applications. This oversized cuff has a 20% larger inside perimeter than the Model 700.

It comes with a lifetime warranty for manufacture defects. Two keys supplied. Made in USA.
