**NEW
PRODUCT**

Model 801CHS Hinged Handcuff

Model 710C Chain Link Handcuff

Model 703CHS Leg Iron

Peerless® high security products are designed for high risk prisoner restraint and transport situations. These products do not operate with a standard handcuff key. The restraints incorporate standard product with a MEDECO® or ASSA® Desmo high security lock system and aluminum housing. Both MEDECO® and ASSA® Desmo use restricted key control systems to prevent unauthorized key duplication. Multiple sets can be ordered with the same key code or different key codes.

Also available with the Dead Bolt Security option. Dead Bolt Security compliments the standard lock with an additional locking position for added security. When engaged, the Dead Bolt feature helps to secure the double lock against brute force and finessed picking and shimmying attacks. The Dead Bolt option is only available with new or existing MEDECO® style key plans.

High security locks are available as chain link handcuff, leg iron and waist chain. Other features include improved internal lock mechanism, spun rivet construction and double lock capability. All products come with two keys, a double lock activator, and a lifetime warranty for manufacture defects. Made in USA.

MEDECO® is a registered trademark of Medico High Security Locks.
ASSA® Desmo is a registered trademark of Abloy Security, Inc.

All Peerless® products are backed by our **lifetime guarantee** for manufacture defects, assuring you of the highest quality material and workmanship. When you want restraint devices that you can depend on, you want Peerless®.

HIGH SECURITY RESTRAINTS

Model	Material	Finish	Weight	Max. Overall Length with Chain	Max. Length between Cuffs	Max. Diam. (First Tooth)	Min. Opening	Max. Internal Circumference	Min. Internal Circumference	Min. Diam. (Last Tooth)
